

The standard for flexibility and reliability

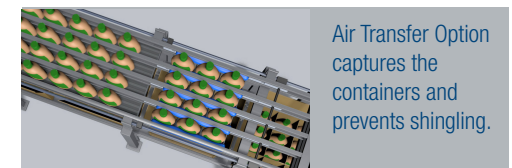

The Hartness Model 875 case packer is the newest version of Hartness' medium speed (30-35 cycles per minute) intermittent motion case packer. With all of the proven features of the Model 835, this packer has a new redesigned robust open frame with full hinged guarding. Its case conveyor is centerlined allowing both single case and dual case packing. The 875's broad options package ensure flexible, efficient operation and a long life cycle.

Benefits

- / Gentle and flexible handling of a variety of products and formats
- / Quick and simple tool-less changeover
- / Superior case and tray handling
- / Air transfer package ensures proven, low pressure handling of lightweighted and difficult to handle containers
- / Broad options package:
 - Positive placement packing for lightweighted containers
 - Stainless steel frame
 - Integrated option for high speed lancing and conveying of difficult shaped containers
 - Automatic Central Lubrication
 - Dry Chain Lubrication
 - Compact change parts storage carts
- / Optional grid trolley and carts for ergonomic changeovers -Provides a "no lifting" option for grid changeover

Air Transfer Option captures the containers and prevents shingling.

ITEM DESCRIPTION

machine	Model 875
voltage	240 / 460VAC or customer choice
phase	3
hz	50 / 60
amp	30 / 15-amp minimum electrical service recommended
air consumption	4-12 cfm @ 30 cycles/min
approximate weight	8,000 lbs (3628kg)
speed	Up to 30 cycles/min
case length	7-36 in [178-914mm]
case width	5.5-16.5 in [139.7-419.1mm]
case height	2-20 in [50.8-508mm]
